**SUMMER  
GUIDE**

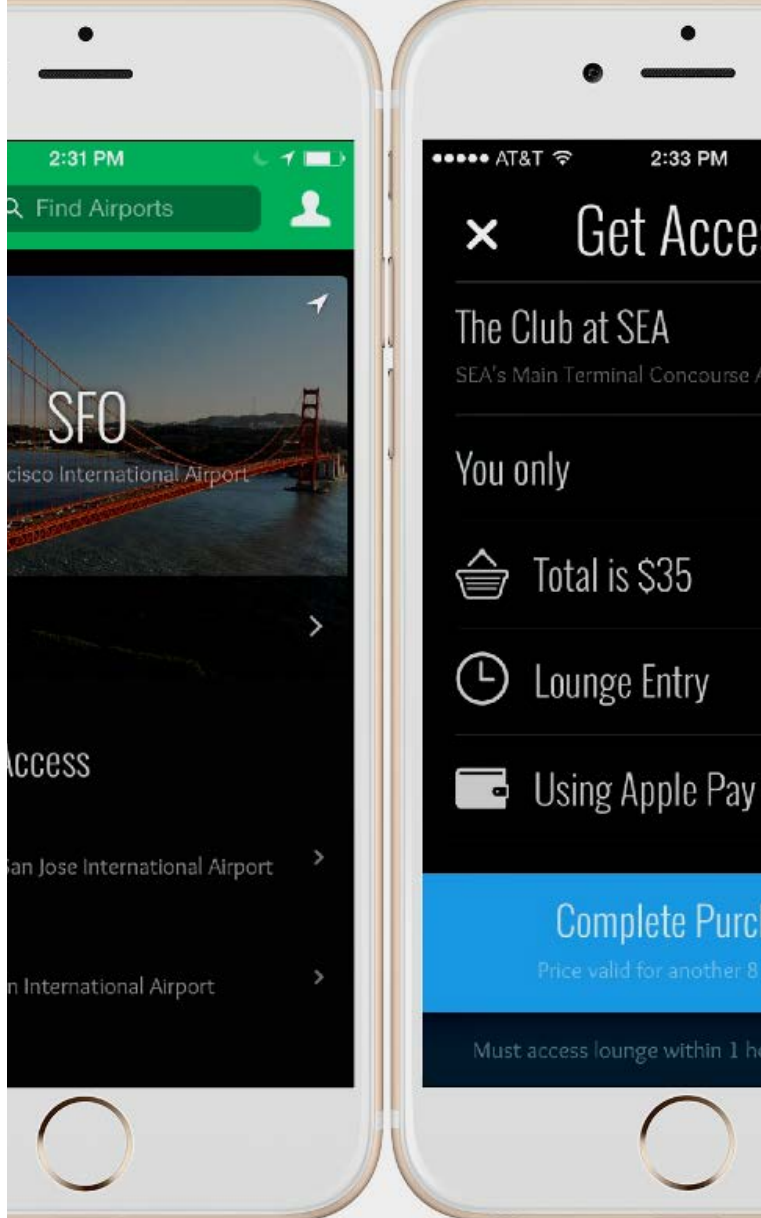

A woman with long, wavy blonde hair is leaning against the open door of a yellow car. She is wearing a green, sleeveless, patterned dress and yellow high-heeled sandals. She is smiling and looking towards the camera. The background is slightly blurred, showing the interior of the car and some outdoor elements.

# EDITOR'S NOTE

I have been asked on a number of occasions what it is about travel that excites me. But more importantly—they want to know what my pre-game plan is for keeping myself comfortable and worry-free on all the flights I take. While it used to be about a good neck pillow, fuzzy socks and a travel blanket, my packing list has evolved to include a number of tech devices, skin remedies, and services that support my trip navigation.

The staff and I have tried and tested these "must-haves" for summer travel and we can assure you that you'll learn how to pack, fly, and vacation like a PRO.

# BEFORE YOU BOARD THE PLANE.

What is **Lounge Buddy**? It's the only app that gives travelers the ability to discover, book, and access airport lounges around the world. Do you have to be a first-class flyer or a super-elite, platinum-status member to get it? NO! That helps but it's not necessary. For as little as \$35, you can start your trip off the right way—comfortable, nourished and, in some lounges, fully rested.

Have you ever gotten all the way to the TSA and forgot you had sandals on without a pair of socks anywhere to be found? Well, you don't have to worry about that any longer.

Part sock, part shoe, **Smoots Comfort Conscious Footwear** is your new, checkpoint-friendly accessory, letting you walk right through security without having to take anything off your feet. Smoots are made of bamboo/cotton-blend socks that are fitted with a recycled rubber sole, offering support for walking through the airport and cushion to get you through the flight. Don't leave home without these as you travel this summer.

all you need

there doesn't  
hurt.

## VACATION HAIR YOU CAN LIVE WITH

It's beyond frustrating to see the hairstyle that looked smooth and sleek at home puff up into an unrecognizable ball of frizz when you arrive at your summer beach destination. What you need in your suitcase is Eufora. Eufora is a collection of advanced formulations that seek to combat daily assaults on your hair to replenish, moisturize, and deliver the extra love your hair and scalp requires—on as well as off of vacation. The extra effort spent taming your hair will pay off when you look back at your nstagram vacation photos. For help tackling your hair on vacation, consider packing Eufora!

Made with a traveler's spirit of adventure in mind, the **Fossil Q x Cory Richards** touchscreen smartwatch blends the best of smart performance with a striking design. Travelers not only get the functions of a smartwatch, but also the ability to change the style of the watch with interchangeable straps. For a one-of-a-kind accessory that lets you track your activities while traveling, this watch is a strong contender for your summer travels.
